Information changes rapidly. This is true in all areas of life. It is important that information concerning all aspects of the Diocese is kept up to date and available. Members of the Diocesan family require updated information, as does the wider Church and the community.

All of us are responsible for keeping our information details up to date. Yes, the Registry staff seek to do their best, but it requires clergy and laity to supply current information. I thank the many people who provide us with information, including when they will be away or unavailable. It facilitates the smooth operation of the Diocese.

The one area that requires constant attention is the change of mobile phone numbers. There are times when we phone, that we hear the number has been disconnected. Sadly, we do not have the new number but people still expect the Registry staff to know!!

The Year Book is current history. It informs us who is where and what is happening ministry wise in the Diocese.

Within the last decade the way the Year Book is made available has changed. In years past the Diocese printed the Year Book, had it bound and then distributed it across the Diocese and the National Church. Today the Year Book is on the web. I access the Year Book all the time on my ipad as I travel around. However, if anyone requires a hard copy please contact my PA.

I pray this Year Book will provide you with information in a timely manner.

Yours in Christ
